

1995-96 Dairy Price Support Program

Basic Legislative Authority

The basic provisions of the Agricultural Act of 1949 (1949 Act) required that the price of milk to producers be supported at such level between 75 and 90 percent of parity as would assure an adequate supply of milk, reflect changes in the cost of production, and assure a level of farm income to maintain productive capacity sufficient to meet future needs. However, since October 21, 1981, the support price has been established by Congress either at specific price levels, or by formula related to expected surplus, rather than parity levels.

Current Legislative Authority

On April 4, 1996, President Clinton signed into law the Federal Agriculture Improvement and Reform Act of 1996 (the Act) which authorizes the Milk Price Support Program through

The following table details each year of the producer assessment program:

Reduction Rates and Yearly Outcomes of Producer Assessments

Cal. Year	Budget Assessment (Jan.-Dec.)	Assessment Offset (May-Dec.)	Cal. Year Reduced Mktgs.	No. Applications	Refunds
	Dollars Per cwt.		Bil. Lbs.		Mil. Dol.
1991	.0500	—	4.6	47,805	23.164
1992	.1125	.0240	3.6	38,595	50.733
1993*	.1125	.0510	5.5	54,403	80.325
1994*	.1125	.0803	4.7	47,956	72.778
1995	.1125	.0698	52.0	37,896	81.928
1996	.1000				

*The Budget Reconciliation Act of 1993 provided for a 90-day moratorium on the sale of recombinant bovine somatotropin (RBST), beginning with the date of approval for use on dairy animals by the Food and Drug Administration (FDA). The act further required assessment rates on milk marketed during the 90-day period be reduced by 10 percent. FDA approved the use of RBST on November 5, 1993. Thus, the November and December 1993 assessment rate was reduced to \$0.1471. The January 1994 rate was \$0.1012, February through April was \$0.1125 and May through December was \$0.1928.

December 31, 1999. Milk prices supported through the purchase of butter, nonfat dry milk and cheese as announced by the Commodity Credit Corporation (CCC) shall be the same for all of that product sold by persons offering to sell the product to CCC. The levels of support for milk containing 3.67 percent milkfat are: \$10.35 per hundredweight (cwt) during calendar year 1996, \$10.20 per cwt during calendar year 1997, \$10.05 per cwt during calendar year 1998, and \$9.90 per cwt during calendar year 1999. Purchase program authority is specifically terminated as of December 31, 1999.

The purchase prices shall be sufficient to enable plants of average efficiency to pay producers, on average, a price that is not less than the rate of price support for milk in effect. The Secretary may allocate the rate of price support between the purchase prices for

butter and nonfat dry milk in a manner that will result in the lowest level of expenditures by CCC, or achieve such other objectives as the Secretary considers appropriate. Such adjustments may be made by the Secretary not more than twice during a calendar year.

The Act further provides for a recourse loan program for milk, effective January 1, 2000. The objective of this program is to make recourse loans available to commercial processors of eligible dairy products to assist processors in managing inventories of eligible dairy products and assure a degree of price stability for the dairy industry. These eligible dairy products are cheddar cheese, butter and nonfat dry milk. The loan rates will reflect a milk equivalency value of \$9.90 per cwt of milk containing 3.67 percent butterfat. The parties receiving the loans will be liable for full repayment of the loan principal plus interest.

Dairy Assessment and Refund Program

The 1949 Act, as amended, provided for a reduction in the prices received by dairy producers. The 1949 Act, as amended, also provided a method by which producers could obtain a refund payment for the entire amount of the reduction in the price of milk received by a producer during a calendar year. The Act terminates the authority to assess marketings of milk effective May 1, 1996. Assessments collected through April 30, 1996, will be refundable. To be eligible for a refund, a dairy farmer must provide evidence that the total milk marketed in 1996 did not exceed the total milk marketed in 1995.

Support Prices

Support prices for milk since 1949 and other pertinent information, including comparable prices for milk with a milkfat content of 3.5 percent (converted by use of Federal Milk Order milkfat differentials) may be found in Table 2.

Method of Support

To carry out the milk price support program, CCC offers to buy carlots of butter, cheese and nonfat dry milk in bulk containers at announced prices, thus providing a floor for milk and dairy product prices. CCC's announced purchase prices since 1949 are shown in Table 3. The calculation of the latest purchase prices can be found in Table 1.

Recent Situation

Prices received by farmers for manufacturing milk for marketing year (MY) 1994-95 which began October 1, 1994, averaged \$11.50 per cwt for milk containing 3.67 percent milkfat compared with \$12.02 a year earlier. The support price was \$10.10, the same as the previous 2 years. Milk production for MY 1994-95 totalled 155.7 billion pounds, up 3.5 billion pounds from MY 1993-94. CCC's removals under the dairy price support program decreased from 4.1 billion pounds milk equivalent, milkfat basis in MY 1993-94 to 2.9 billion pounds in MY 1994-95. CCC's net cost for the dairy price support program in 1994-95 totalled \$4 million.

Purchases in Special Forms or Consumer-Size Packages

In addition to its purchases of bulk products at announced prices, CCC has historically purchased butter, cheese and nonfat dry milk in special forms or in consumer-size packages. The prices for products in consumer-size packages include allowances for the additional processing and packaging costs. Purchasing products in consumer-size packages enables CCC to supply dairy products under the sales and donation programs more efficiently.

Processing and Repackaging

In order to facilitate their use, most products purchased in bulk form are processed and/or repackaged in forms suitable for sales and donations. These services, which are contracted through competitive bids, include: repackaging bulk butter into 1-pound prints, processing butter into butteroil; processing block or barrel cheese for use in 5-lb. and 2-lb. loaves, and, instantizing and/or fortifying nonfat dry milk with vitamins A & D.

Market Removals and Sales

During MY 1994-95, net removals of dairy products, delivery basis, from the market by CCC totalled 110 million pounds of butter, 8 million pounds of cheese and 384 million pounds of nonfat dry milk. These removals include 108 million pounds of butter, 8 million pounds of cheese, 359 million pounds of nonfat dry milk and 44 million pounds of dry whole milk exported under the Dairy Export Incentive Program (DEIP).

USDA also purchased, on a bid basis, 46 million pounds of natural and process American cheese and 20 million pounds of Mozzarella cheese at market prices. In addition, USDA purchased 25 million pounds of evaporated milk, 4 million pounds of concentrated liquid infant formula and 274 thousand pounds of powdered infant formula under Section 4(a) of the Agriculture Consumer and Protection Act of 1973 for distribution to needy persons. USDA's total price support removals, milkfat basis, for MY 1994-95, were about 1.8 percent of total marketings by farmers, compared with 2.6 percent in MY 1993-94.

When CCC has significant quantities of dairy products in inventory, sales for unrestricted use prevent market and consumer prices from rising above the equivalent of CCC's sales prices. Since the spring of 1981, the minimum sales prices have been 110 percent of CCC's purchase prices at the time of the sale by CCC. During FY 1995, CCC sold 24.9 million pounds of butter, compared to 47.5 million pounds in FY 1994.

DEIP

Sales are administered by the Foreign Agricultural Service which provides subsidies for the export of dairy products from commercial sources. Products removed from the commercial market by exporters filling DEIP contracts are considered to be CCC removals because these exports would not occur without CCC subsidies.

Commodity Fact Sheet

1995-96 Dairy Price

Support Program

Page 3

Utilization

About 118 million pounds of butter, 66 million pounds of cheese and 17 million pounds of nonfat dry milk were used in Food and Consumer Service domestic donation programs. Foreign donations under Section 416(b) of the 1949 Act totaled 8 million pounds of nonfat dry milk. Foreign donations under the Agency for International Development and Food for Progress programs totaled almost 16 million pounds of dry whole milk. Export sales totaled about 0.7 million pounds of butter, including butteroil, and 19 million pounds of nonfat dry milk, another 0.3 million pounds of butter were exported in exchange for generic certificates. Sales to the Department of Defense for use abroad totaled 0.3 million pounds of butter, while donations

to the Department of Defense for use in military rations totaled 4 million pounds. The Bureau of Prisons used about 3 million pounds of butter.

Inventories

As of September 30, 1995, uncommitted inventories totaled only 23 million pounds of nonfat dry milk. There were no inventories of butter and cheese. This compares with 41 million pounds of nonfat dry milk, and no butter and cheese the previous year.

Net Expenditures and Other Tabular Summaries

Purchases, utilization and inventories of dairy products since MY 1984-85 can be found in Tables 4, 5 and 6. Purchases of dairy products by type and package size since MY 1984-85 are set out in Table 7. CCC's net realized

losses (expenses) and net expenditures for the dairy support program since FY 1984 are shown in Table 8, and outlays, since FY 1984, by dairy product, are shown in Table 9. Purchases of dairy products by State since MY 1984-85 are shown in Tables 10, 11 and 12. Footnotes contained in Tables 2 through 12 are listed in the back of this report.

The U.S. Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact the USDA, Office of Communications at (202) 720-2791.

To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington, DC 20250, or call (202) 720-7327 (voice) or (202) 720-1127 (TDD). USDA is an equal employment opportunity employer.

FOOTNOTES:

Table 2

¹Expenditures shown as follows: 1949-50 through 1963-64, *fiscal year* (July 1-June 30); 1964-65 through 1976-77, *marketing year* (April 1-March 31); 1976-77, *12-month period* (October 1-September 30, 1976-77); 1977-78 to date, *marketing year*, (October 1-September 30).

²Standardized to 3.67 percent milkfat in 1972-73.

³Price support, Section 32, Section 709 and Section 4(a) purchases (delivery basis) of butter, cheese, nonfat dry milk, evaporated milk and dry whole milk, plus exports on which CCC issued payment-in-kind certificates, less CCC sales for unrestricted use.

⁴Net expenditures to CCC plus domestic and foreign donation expenditures. For 1964-65, includes costs of military milk program, and through 1965-66, the payment-in-kind export program. Includes costs of dairy products bought at market prices under Section 709 of the Food and Agriculture Act of 1965 in 1966-67, 1969-70, 1970-71, 1972-73, 1973-74, and 1989-90. Also includes costs of dairy products bought at market prices under Section 4(a) of the Agriculture and Consumer Protection Act of 1973 in 1973-74 and 1974-75.

⁵As of the beginning of the marketing year.

⁶As of April 1.

⁷Less than 50 million pounds.

⁸For 12-month comparative purposes.

⁹Support price established at specific price levels rather than parity levels, beginning October 1981.

¹⁰ Reflects approved methodology for calculating milk equivalent on fat solids basis in accordance with the Food, Agriculture, Conservation and Trade Act of 1990. Includes removals under DEIP.

¹¹Revised.

Table 3

¹²Prices for products in bulk containers at which CCC stood ready to buy all that was offered. Purchases on a bid basis were also made of limited quantities for specific program uses.

¹³U.S. Grade A or higher. Announced price at New York City and nearby areas. Prices at other locations were either specifically announced, or based on freight rates from specified locations. Beginning April 1, 1985, the price applies to all locations.

¹⁴U.S. Grade A or higher, standard moisture basis.

¹⁵U.S. Extra Grade.

¹⁶U.S. Extra Grade, but not more than 3.5 percent moisture content.
